

Pali Conventions

NUMBERING SYSTEM

1. **Embedded bold numbers within [square brackets], e.g. [172]**, refer to the page of the Pali text of the Pali Text Society (PTS) edition.
2. **Words within [square brackets] in normal print**, are an amplification (explanation) of the word or words that precede or follow. This is not an original part of the text but added for clarity.
3. **Embedded *italicized* numbers, e.g. .../4/...** refers to a reading (or pericope) repeated elsewhere in the text or book.
4. ***Italicized words or phrases*** are abridged (shortened) forms of the repeated passages that have appeared in the same sutta or chapter.
